Profile

Final year Computer Science & Engineering undergraduate with a strong foundation in problem-solving, programming, and data analytics. Completed a Summer Internship as a Trainee Data Intern, working with SQL, Power BI, and Microsoft Fabric to build data-driven solutions. Experienced in developing full-stack applications, AI-powered solutions, and analytics projects, with a focus on scalable software, data engineering, and business intelligence.

Education

Nirma University, Ahmedabad

2023 – 2027

B.Tech. in Computer Science & Engineering | **Minor: Adaptive AI**

CGPA: 8.63 / 10.0

Experience

Dynatech Systems Pvt. Ltd.

May 2026 – June 2026

Trainee Data Intern | IT Department | Onsite, Ahmedabad

- Developed an end-to-end HR Management System BI Report using SQL, Power Query, DAX and Power BI for applicant and interview analytics.
- Published a production-level paginated leave report with parameterized PDF generation and redesigned layouts for Approved and Pending leave record.
- Worked with **SQL**, **Power BI**, **Microsoft Fabric**, and **Power Automate** to build dashboards, automate workflows, and deliver business intelligence solutions.

Projects

TrustWork - Freelancer Escrow Platform | [GitHub](#)

Apr 2026

React.js, Node.js/Express, MySQL, MongoDB, JWT

- Developed a full-stack escrow platform enabling secure fund locking and milestone-based payments between freelancers and clients.
- Designed a **6-state milestone workflow** (Created → Escrowed → Submitted → Approved → Released → Disputed) with **auto-release after 7 days** to ensure timely payments.
- Implemented **MySQL transactions** for escrow payment integrity and integrated **MongoDB** for flexible activity logging, alongside idempotent webhooks and audit tracking.

Credit Risk Scorecard & Default Prediction | [GitHub](#)

Mar 2026

Python, Scikit-learn, Power BI, MySQL

- Built end-to-end credit risk model on 2.26M loan records; processed data into 1.30M analysis-ready records.
- Performed EDA and engineered 27+ features; trained Logistic Regression model achieving ROC-AUC 0.95, KS 0.75, and Gini 0.90.
- Developed interactive Power BI dashboards connected to a MySQL database to monitor loan default and approval rates.

Technical Skills

- Languages:** C++, Java, Python, C, SQL, HTML/CSS
- Frameworks & Libraries:** React.js, Node.js, Express.js, Flask, Tailwind CSS
- Data Analytics & Visualization:** Pandas, NumPy, Matplotlib, Seaborn, Power BI, Tableau
- Databases:** MySQL, MongoDB
- AI/ML & Deep Learning:** PyTorch, GANs, OpenCV, RAG Pipelines, LLMs
- Tools & Platforms:** Git/GitHub, AWS
- Core Skills:** Object Oriented Programming, Data Structures & Algorithms, Database Management System, Operating Systems

Leadership & Responsibilities

- Vice President, NUMAISH - The College Music Band** Aug 2025 – July 2026
Led planning and coordination for 12+ events, increasing participation and audience engagement by **25%** through structured outreach and rehearsals.
- Organizing Committee, HACKaMINeD - Nirma University** Mar 2026
Managed logistics for a 2300+ participant pan-India hackathon, contributing to graphics and website operations.
- Graphics Head, Data Science Club - Nirma University** Aug 2025 – July 2026
Designed promotional creatives and event collateral, contributing to increased registrations and mentoring juniors.
